Problem statement

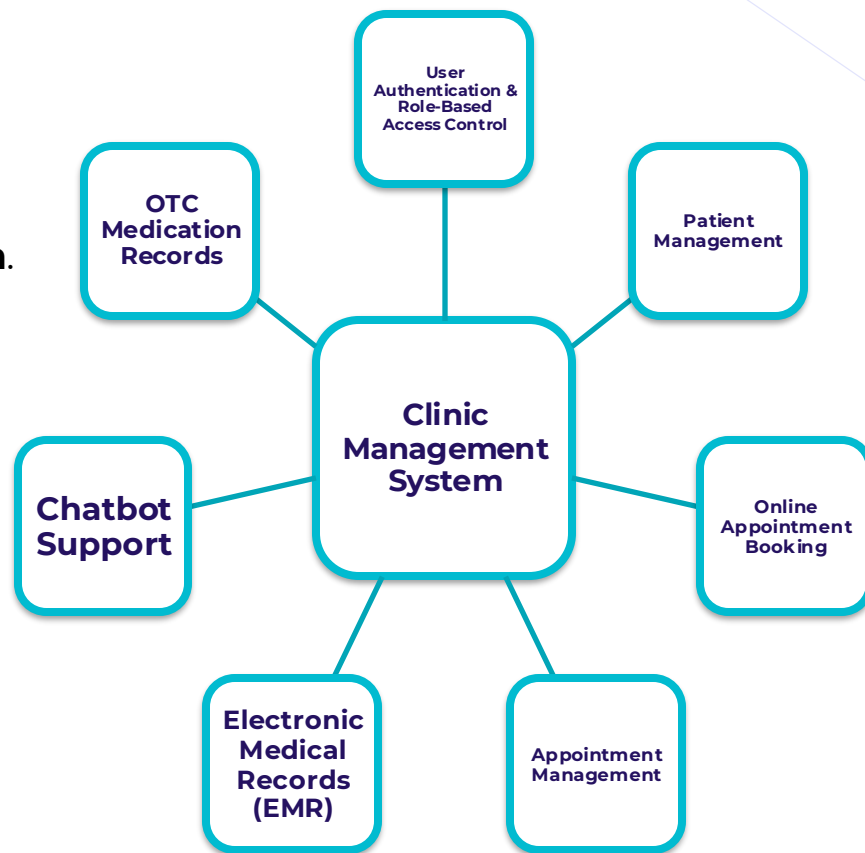

- **Outdated** clinic management system
- **Limited** functionality
- **Manual** booking, **unstable**
- **Shortage** in database
- **Time consuming** with traditional management method

**Modern – Robust
Features rich
Management application**

Objective & Scope

- **Design, develop, deploy** an **improved** web-based **clinic management system**.
- **Streamline** clinic operations.
- **Enhance** patient experience.
- Provide **better data management** capabilities.
- Core functionalities:

Approach

Agile development methodology:

- Requirement Analysis and Design
- Database Development
- Backend API Development
- Frontend UI Development
- Integration and Testing
- Deployment

Technology stack

- **Frontend:** React, TypeScript, Node.js/npm, Axios
- **Backend:** Python, FastAPI, SQLAlchemy, Pydantic, Uvicorn, python-jose, passlib/bcrypt, and Google Generative AI SDK
- **Database:** PostgreSQL.

Conclusion

Clinic Management System

- **Patient** Management
- **Online appointment** booking
- **Electronic medical record** management
- **Chatbot** for user support

Architecture & Technology

- **Client-server:**
React + FastAPI
- SQLAlchemy, JWT, Pydantic
- GitHub (Vercel + Render)

Security & Access Control

- **Role-based** access
- Ensures **appropriate and secure access** to features and data

Conclusion

Deployment Details

- **Frontend** hosted on Vercel: <https://clinic-management-nine-lime.vercel.app/>
- **Backend** hosted on Render: <https://clinic-management-be3h.onrender.com/>
- **Database:** Google Cloud SQL for PostgreSQL
- **CORS** policies and environment variables ensure seamless frontend-backend integration

Outcomes

- **Streamlined** clinic operations and data management
- Enhanced **service delivery** and **user experience**
- **Intuitive** and **user-friendly interface**
- System is **stable, fully deployed,** and **ready** for real-world use

| Future development

- Advanced EMR Features
- Enhanced Patient Portal
- Telemedicine Capabilities
- Inventory Management
- Mobile Application
- Enhanced AI Chatbot

THANK YOU FOR LISTENING
